

QSET Consensia

Reporting

Effective Reporting is Crucial to Your Organizations Management System

'If you cannot measure it you cannot manage it' - QSET Consensia Report & Monitor is a focused business tool for graphical reporting and analyzing of data from QSET Consensia compliance and business improvement management system. When faced with a business challenge you do not want to search through views and tables of data (if available!) to understand what is happening in your organization. You want fast and powerful analysis of management information. QSET Consensia Report & Monitor allows interpretation and delivery of business intelligence from all QSET Consensia modules.

QSET Consensia Reports delivers:

> Smarter Working Practices

People work and manage smarter by measuring performance. You make faster decisions working with information presented graphically combined with analysis and feedback. It increases effectiveness in analyzing patterns to become proactive rather than reactive. This combination of information and interpretation creates knowledge to help people understand what is happening, decide what to do about it and take action.

> Summarized Information

Use data captured by QSET Consensia (and non QSET information sources) to present the information and metrics needed to manage performance effectively. Reduce reporting time and present only the key data and performance indicators to executives.

> Shared Knowledge

You can present reports to tens, hundreds or thousands of people across locations even if they only access the system on an occasional basis. Leverage the scalability, security and manageability of Lotus Domino to deliver reports to everyone, anywhere.

> Exception Reporting

Use traffic lighting features to identify potential problem 'hot-spots' requiring immediate attention.

> Low Training Costs

Experienced QSET Consensia users can create reports in a few minutes. Virtually no end-user training required. Any user with a web browser can view and analyze reports and drill-down to detailed information without training.

> Low Support Needs

QSET Consensia Reporting consolidates and updates reports automatically removing the duplication of effort that you currently experience on a daily, weekly, monthly basis. Remove the need for IT and system administrators valuable time manually preparing spreadsheet presentations or building of customized views for each report.

> Integration

Integrate with other management system databases to provide comprehensive overview of all management systems in one location. QSET Consensia Report & Monitor easy integrates with other management system databases to provide a 'one-stop-shop' for all your business reports.
